

Christina Belza

Hospital for Sick Children, Canada

Session 9: Workshop Summaries (Intestinal Rehabilitation, Intestinal Transplantation, Allied Health); July 3, 2023; 1:30pm-2:30pm

Christina Belza received her Bachelor of Science in Nursing from McMaster University before working in a variety of areas including Blood and Marrow Transplant, Clinical Response Nurse and the Emergency Department before pursuing her Masters. She has been a nurse practitioner for the past 15 years in the pediatric intestinal failure program at the Hospital for Sick Children in Toronto. In her work capacity she manages inpatient and outpatients on long-term parenteral nutrition and intestinal failure. Academically, she recently completed her PhD in clinical epidemiology with a focus on evaluating burden of care for caregivers of children with intestinal failure. Her research interests also focus on evaluating long-term outcomes for children with intestinal failure and implementation of novel therapies to improve long-term morbidity and mortality.
