

Geoff Bond

University of Pittsburgh, USA

Meet the Investigator Wake Up Session: A: STEP Up or STEP Down; July 2, 2023; 7:00am-8:00am

C: Intestinal Tx for Hirschsprungs – stoma for life or not?: No; July 2, 2023; 3:30pm-4:00pm

Geoff Bond was originally trained as a pediatric surgeon in Australia, subsequently going on to transplant training in Sydney and completing it in Pittsburgh, now over 25 years ago. He has maintained his professional career in Pittsburgh, whilst also helping with the setting up of the Australasian Intestinal Transplant program in Melbourne, Australia. In Pittsburgh he first worked with the Adult Intestinal Rehabilitation and Transplant Center, until transitioning his care primarily to the pediatric population, working both with Pediatric General and Thoracic Surgery as well as Pediatric Transplant Surgery, with a major directive to care of pediatric intestinal failure patients. He is the Pediatric Surgery and Transplant Surgery Co-Director of the ICARE unit at the Children's Hospital Pittsburgh and performs the majority of the pretransplant rehabilitation surgeries for this group of patients. He is a previous counsellor of the IRTA and ongoing co-director for PIFRS.
