

Patricia Brubaker

University of Toronto, Canada

Session 6B: Hormonal Regulation of Intestinal Adaptation: B: Targets for Manipulation of the Short Gut: Focus on GLP-2; July 2, 2023; 2:50pm-3:10pm

Dr. Patricia Brubaker obtained her Ph.D. at McGill University followed by post-doctoral studies at the University of Toronto, where she is Professor in the Departments of Physiology and Medicine. Since 1985, she has conducted fundamental studies on the regulation and biological activities of the intestinal hormones, glucagon-like peptide-1, used in the treatment of patients with type 2 diabetes and obesity, and glucagon-like peptide-2, approved for patients with short bowel syndrome. Dr. Brubaker has published over 200 papers and trained more than 200 students and fellows during her career. She was supported by a Tier 1 Canada Research Chair in Vascular and Metabolic Biology from 2001-2022, was inducted as a Fellow of the Royal Society of Canada in 2016, and received the Diabetes Canada Lifetime Achievement Award in 2020.
