

James Dunn

Stanford University, USA

Session 4A: Non-Transplant Surgical Management of Intestinal Failure: C: Intestinal Lengthening Using Springs and Other Novel Strategies; July 2, 2023; 9:10am-9:30am

Dr. Dunn obtained his B.S. degree in Biology and Chemical Engineering from the California Institute of Technology and his M.D. and Ph.D. degrees from Harvard and Massachusetts Institute of Technology. He trained in General Surgery at the UCLA School of Medicine and in Pediatric Surgery at the Riley Hospital for Children in Indianapolis. He was the Professor and Chief of Pediatric Surgery at UCLA, with a joint appointment in the Department of Bioengineering until 2016. Dr. Dunn served as the Susan B. Ford Surgeon-in-Chief at the Lucile Packard Children's Hospital from 2016 to 2022. He is the John A. and Cynthia Fry Gunn Director of Pediatric Surgery, and Professor of Surgery and Bioengineering at the Stanford School of Medicine. He is the inventor of an intestinal lengthening device for the treatment of short bowel syndrome.
