

Francisco Hernández Oliveros

la Paz University, Spain

Session 6A: Surgical Debates: B: Include the Spleen with Intestinal Graft - yes or no?; July 2, 2023; 3:00pm-3:30pm

He is currently the director of a research group dedicated almost exclusively to intestinal transplantation, and Head of the Pediatric Transplant Section at La Paz University Hospital, one of the centers with the largest experience in pediatric transplantation in Europe.

Bachelor of Medicine and Surgery at the University of Granada (1997) and PhD in

the Autonomous University of Madrid (2018), with an experimental clinical thesis on intestinal transplantation. He completed his training in Pediatric Surgery at the La Paz University Hospital. He was awarded with two scholarships abroad (Cincinnati Children's Hospital, and Miami Transplant Institute) dedicated mainly to transplantation. He completed his academic certification with the European Boards in Pediatric Surgery and Transplantation, Master's Degree in Medical Direction and Clinical Management from the UNED (2007-2009), and Master in Health Center Management OBS Business School and UAB (2018-2019). He has specialized in research in clinical and experimental transplantation with several research projects (CAM, FIS, and FMM).

He has also extensive participation in research networks: member of the SAMID network (RETIC), member of the European network for intestinal transplantation research NITE, and member of the executive committee of the European reference network ERN-TRANAPLASNTCHILD, dedicated to the pediatric solid and hematopoietic organ transplantation, and the only one of these coordinated networks from a Spanish center.

Finally, he treasures an intense collaboration with patient associations dedicated to intestinal failure and transplantation (NUPA) including charitable and scientific outreach activities.
