

Eamonn Quigley

The Methodist Hospital of Houston, USA

*Session 1B: Microbiome and Intestinal Failure and Transplantation:
D: Implications of Small Bowel Bacterial Overgrowth in Intestinal
Failure; July 1, 2023; 9:30am-9:50am*

Dr. Eamonn M. M. Quigley, past president of the American College of Gastroenterology and the World Gastroenterology Organization, serves as chief of the division of gastroenterology and hepatology at Houston Methodist Hospital and it is the David M Underwood Professor of Medicine in Digestive Disorders and co-director of the Lynda K and David M Underwood Center for Digestive Disorders.

Prior to his move to Houston in 2013, Quigley was professor of medicine and human physiology and a principal investigator at the Alimentary Pharmabiotic Centre at the National University of Ireland in Cork. He is internationally known for his research on gastrointestinal motility disorders, primarily irritable bowel syndrome (IBS); gastroesophageal reflux disease (GERD); neurogastroenterology; the gut microbiome and probiotics in health and disease.

He has published more than 800 peer-reviewed articles, reviews, editorials, book chapters and case reports, mostly in the areas of gut motility, functional gastrointestinal disorders, and GERD. Quigley has received numerous international honors and awards. He served as Editor-in-Chief of the American Journal of Gastroenterology from 1997 to 2003.

Quigley received his medical degree from University College Cork in Cork, Ireland; completed internal medicine residency in Glasgow, Scotland; and did GI fellowship training at the Mayo Clinic and the University of Manchester in England. He served as the Chief of Gastroenterology at the University of Nebraska from 1991 to 1998 and as Dean of the Medical School in Cork, Ireland from 2000 to 2007.
